EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with S. Scruggs on 6/13/05.

The application has been amended as follows:

In the title:

The phrase --METHOD OF MOLDING A-- has been inserted before the word "multilayer".

In the specification:

Pg 1, ln 5: the phrase --now U.S. Patent No. 5,885,172,-- has been inserted after "27, 1997,".

Pg 1, ln 6: the phrase "each of which is now pending" has been replaced with -now U.S. Patent No. 6,132,324--.

In the claims:

Cl 46, ln 6: the word "forming" has been changed to --injection molding--.

Cl 56, ln 6: the word "forming" has been changed to --injection molding--.

Cl 73, ln 6: the word "forming" has been changed to --injection molding--.

2. The following is an examiner's statement of reasons for allowance: the prior art of record neither teaches nor renders obvious all of the claimed limitations including a forming a core; injection molding an inner cover layer having a first shore D hardness; and casting a dimpled outer cover layer from a thermoset having a second shore D hardness that is less than the shore D hardness of the material of the inner cover layer. It should also be mentioned that the instant independent claims are commensurate in scope with patented parent application 09/207690 (USPN 6132324).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following US patents show the state of the art: 6585608; 5733428; and 5334673.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to EDMUND H. LEE whose telephone number is 571.272.1204. The examiner can normally be reached on MONDAY-THURSDAY FROM 9AM-4PM.
